Borregaard ensures sustainable water consumption with its own water purification plant.

Pure
Borregaard produces vanillin in Norway, where 99% of the power supply is derived from hydroponow - one of the most sustainable energy sources.
Borregaard is one of the world’s most advanced biorefineries. By using natural, sustainable raw materials, Borregaard produces advanced and environmentally friendly alternatives to mineral oil based products.
Vanilla - one of the world’s most popular flavours. When it comes to taste, EuroVanillin Supreme has one of the closest tastes to natural vanilla beans. We make the vanillin flavour available to almost everyone.
